

My name is And I go to

.....
School

This year school has been very different because of Coronavirus.

Sometimes I have stayed at home. Sometimes I have been asked to return to school.

Now all the children in school are in “bubbles”. But not like bubbles that we blow for fun. It means groups of children we spend lots of time with, like our year group or our class.

Mum and Dad are really pleased with me when I go to school and stay in my bubble. They think I have been brave coming back into school.

It’s safe to come to school now because we stay in our bubbles. If someone in our bubble gets ill, we might have to spend time out of school again.

School will let us know when we can return.

My teacher is happy when I am in school and pleased that I am in lessons.

I have been very brave about coming back to school and everyone is pleased with me.

The end.
