

What to do when faced with a problem?

When faced with a calculation problem, encourage your child to ask...

- ★ Can I do this in my head?
- ★ Could I do this in my head using drawings or jottings to help me?
- ★ Do I need to use a written method?
- ★ Should I use a calculator?

Also help your child to estimate and then check the answer.
Encourage them to ask...

Is the answer sensible?
